Seeds in brackets. Each group's seeds add up to 40.

How the league works

- Each team plays 8 league games: the 4 others in its group, plus 2 from each other group.
- Cross-group opponents are chosen so every team's schedule strength (sum of opponents' seeds) is 63–65, so the single league table is a like-for-like ranking.
- League table: points, then net run rate, then head-to-head. Top 4 go to IPL-style playoffs.
